Summer Camp 2016

A Walk in the Woods...

At Redwood Montessori School's Summer Camp, we will study the natural world in our own neighborhoods – from the towering trees to the crawling bugs! We will cultivate a lifelong love of nature and community by connecting children directly to the natural world in their everyday surroundings and learning about the incredible impact nature has on our lives.

Our Montessori-based Outdoor Classroom takes a holistic approach, and integrates learning with the freedom, warmth and fun that summertime brings.

Email us at info@redwoodmontessori.com to enroll!

About Us

Redwood Montessori School offers engaging and high-quality preschool and Kindergarten Montessori programs for children ages two to six years old, and an open and inviting community for their families. Our focus is to instill in children a love for learning in the classroom and beyond, courage, perseverance, empathy and respect for other individuals and for our environment.

Our team of educators are dedicated to improving early childhood education through the implementation of the Montessori philosophy. While we all arrived at Redwood Montessori School with very different experiences, the common bond between us is our genuine commitment to early childhood education. To work in education is our calling, not simply a job. We constantly strive to create a warm, nurturing, and engaging environment for our students' academic, social, and emotional advancement.
